# Methodology

# Conclusions of the analysis and suggestions for improvement

Current status	Suggestion for improvement
Stakeholders responsible & accountable for policy implementation have shown limited OWNERSHIP & COMMITMENT.	Continued capacity-building among local institutions.
Limited access to/use & analysis of local information, with a rights-based approach (individualisation of the subject of law/CUI-holder).	<p>Proposal for the implementation of a municipal information system; already launched within the Social Register of Households (RSH).</p> <p>Analysis of chronic malnutrition at departmental &amp; municipal level, through the availability of routine data.</p>
Poorly defined indicators & targets & decoupling of the causal model from the institutional programme (policy) offering.	The process of updating the Municipal Policy is due to begin.
