National Information
Platforms for Nutrition

**Ivory Coast National Multi-
sectoral Information
Platform for Nutrition
(PNMIN): *A structure and
roots that will promote
sustainability***

Amsterdam global conference

May 2019

- UGP (Management Unit) rooted in the Permanent Technical Secretariat of the National Council for Nutrition (STP-CNN), which is directly attached to the Prime Minister's Office
- Management Unit (UGP) made up of 5 people working full time on the PNMIN and paid by the State of Ivory Coast.
- Activities of the platform integrated into the STP-CNN operational action plan.

- Operation of the PNMIN integrated into the STP-CNN procedures manual.
- Operational expenditure for the PNMIN integrated into the STP-CNN budget (*staff salaries, premises, transport and communications costs, social security*)

- Support from stakeholders (STP-CANN, *Technical Committee of the National Council for Nutrition, Regional Nutrition Committees, National Institute for Statistics*).
- Future funding for PNMIN activities.
- Staff motivation.
- Regular updating of the centralized directory.

- Keep the PNMIN rooted at a high institutional level.
- Strengthen the capacities of the PNMIN team.
- Think about alternative sources of post-project funding (State budget, ideally...).
- Establish a long-term mechanism for centralizing sector data.

- Change of leadership
- Change in government priorities
- Being rooted in institutions
- Coordination of action on nutrition

THANK YOU
